### **DETAILED ACTION**

1. Claims 1-8, 10-13, 15, and 16 are allowed.

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited limitations of claims 1-8, 10, and 11 including the resistor ladder operable as a biasing circuit operably coupled to produce the first, second, and third bias voltages to the first, second, and third transconductance stages, respectively.

Similarly, the references of record also fail to teach or suggest the recited combinations of claims 12, 13, 15, and 16 including the resistor ladder, which comprises a plurality of resistors, wherein at least one of resistor is coupled between each transconductance stage of the class AB transconductance block. For these reasons, claims 1-8, 10-13, 15, and 16 are allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
